

DRIVES.—There are delightful drives in every direction. Few cities have such beautiful streets, lined by large oaks with their refreshing shade. Virginia Drive, laid out and maintained by Mr. C. H. Morse, skirts the shores of Lakes Mizell and Virginia. It shows something of the forest primeval, and as you pass under and between the large oaks, draped with the long, Spanish moss, it is both interesting and restful.

The drives through the beautiful grounds of "Alabama Lodge," "Eastbank," "The Palms," and others, show what art, coupled with nature, can do. There is much to attract the attention and admiration of the tourist and visitor.

ENVIRONMENT.—The grouping and arrangement of the eleven lakes in the town was by nature's artist, and the whole has responded to the work of man until the environment is one of the most beautiful to be found anywhere. Four of the larger lakes are in the center, and connected by runways through which pass, to and fro, boats and launches at their pleasure.

RESIDENCES.—We place before our readers a few of the handsome residences and villas of the town. Among the suburban and central homes are those of "Eastbank," Mr. W. C. Comstock, Chicago, Ill.; "The Ripples" (estate), J. C. Stineman; "Alabama Lodge," Mr. W. C. Temple, Pittsburg, Pa.; "The Palms," Mr. E. H. Brewer, Cortland, N. Y.; "Bonnie Burn," Dr. C. R. Switzer, Evanston, Ill.; "Weatogue," Mr. F. E. Spooner, Chicago, Ill.; "The Anchorage," Commodore G. L. Dyer, U. S. N. (retired); "Grayacres," Mr. Robert Dhu Macdonald, New York City; "Osceola Lodge," Mr. C. H. Morse, Chicago, Ill.; "Wolverstone," Mr. Nathan Follette, Charlevoix, Mich.; and "Reed Villa," Col. Hugh T. Reed, U. S. A. (retired). These cover nearly one thousand acres, and are among the most attractive villas of the State.

HOTELS.—No city or town in central Florida has better hotel accommodation than WINTER PARK. For fuller account we would refer to the views and description given elsewhere.

PHYSICIANS.—WINTER PARK has two resident physicians, who are among the best in the State. Both are men of large general and hospital experience, commanding the respect of every one.

PUBLIC SCHOOLS.—Rollins and the Public Schools of the town offer the best of privileges for a good education. The schools are well graded and under the superintendence of a competent director. The town has a good building, equipped and adapted for the educational work.

BUSINESS HOUSES.—The business houses of the town comprise two Grocery Stores, two Meat Markets, Drugs and Stationery, Dry Goods and Notions, Gents' Furnishing Goods, Hardware, Laundry, and the Bank of WINTER PARK. There are also two Livery Stables, an up-to-date Garage, Blacksmith Shop, and a Cement Plant.

BOARD OF TRADE.—The WINTER PARK Board of Trade was organized in 1909, and the results of its work are apparent in the growth and progress which has been made. It is an active, efficient agency, through its various committees, in advancing every interest of the town.

AN EARLY SETTLER.—"Bonnie Burn," situated on beautiful Lake Sue, was purchased by Dr. C. R. Switzer about the time Chapman and Chase were negotiating for the site of WINTER PARK, and is among the first pieces of property bought by a northern settler in this vicinity. The "Burn," from which it derives its name, flows through a surrounding hammock. See views presented elsewhere.
