January Town Hall Series Announced

Circle the next three Tuesday evenings on your calendar for the January attractions coming on the Town Hall Series, presented by Dorothy Lockhart in the Winter Park High School Auditorium at 8:15.

These are the first of six outstanding entertainments to be included this season on Town Hall for the 10th anniversary celebration of its distinguished series.

Ray Middleton, star of "South Pacific" and a favorite of radio and television audiences, will be here Tuesday evening January 17. He will present a program of true Americana and will reach as far back as the Revolutionary period for his selections into the songs of the romantic west, through the Civil War period and close with the favorites of the famous American composers, Rogers and Hammerstein. Mr. Middleton is an avid student of American history and has been especially interested in the legends that have grown up around Lincoln. In the Civil War section of the program the Town Hall audience will hear little known stories about Lincoln as well as Ray Middleton's stirring reading of the Gettysburg Ad-

Annual Memorial Hospital Drive Nets 604 Members

The Annual Membership Drive of the Winter Park Memorial Hospital Association resulted in 604 new members as of January 1st, it was revealed this week in a report submitted to A. G. Bush, Association President, by Arthur L. Zerbey, chairman of the Campaign Committee. Additional memberships are still coming in and it is expected that the total will reach a much higher figure by the time of the Annual meeting in April, Mr. Bush said.

The People of Winter Park, through their membership in the Association have again demonstrated their interest in, and support of, their hospital," said Mr. Bush. "The campaign carried on by Mr. Zerbey and his committee was conducted entirely by mail by volunteer workers and it was highly successful. We are very hopeful that by the time of the annual meeting the membership will be more than double what it is today."

In presenting his report to the Executive committee Tuesday afternoon Mr. Zerbey recommended that the general campaign be closed but that the way be left open for additional members from groups as yet unsolicited."

*Reveries
of An Owl*

You may possibly recall, if you have a fairly good memory and chanced to cast your eye on this column last week, that the Owl got himself so involved in recapping the happenings of the past year's history, that he was obliged to take his foot off the typewriter's accelerator long before reaching the end of his subject. Here we resume.

The current epidemic of home building was touched upon. It is a real phenomenon. New homes, myriads of them, have blossomed out wherever a vacant lot survived. Regardless of the voters' will regarding annexation, real estate promoters in the hinterlands have gone merrily on sprouting houses out of the white sands, without the slightest apparent doubt as to a purchaser showing up, his pockets bulging with ready cash, and hungry for one of those self same houses. And those folks with pockets full of money have seemed to always show up.

Then, as if all these new houses weren't enough, along came other promoters with new apartments, there is even a "co-op" in which everyone buys his apartment instead of merely renting it. It's his own home, but devoid of all, or most all, responsibility; no grass to mow, no coal to shovel, no snow to plow—hold on — the Owl is living in Florida now, not on the shores of chilly Lake Erie.

The problems of traffic and parking still remain perennial sources of civic discord. No matter what is done or isn't done to meet these difficulties and emergencies, the citizen feels that he

has an inalienable right to cuss the mayor and his fellows.

The Bank has enlarged its parking space, for which the Owl hereby returns thanks, although he usually avails himself of the facilities afforded by the drive-in teller's window.

The City has done its best to help out the would-be auto-parker, by extending Knowles Avenue to Lyman Avenue, and taking into it a sizable area back of the Congregational Church. This move, in spite of good intentions, has stirred up vitriolic criticism because the immense unbroken area of cement, when reflecting the sun's rays in summer, must be expected to develop into a most efficient central heating plant for that whole section of town. Furthermore, these same critics aver, there should have been a tree-shaded walk through the middle of this wide area, which would enable car owners to emerge intact from the maze of cars, and at the same time break up to some extent the heat radiating cement pavement. For evidence in support of this plea consult Morse Boulevard, East. For further evidence consult Morse Boulevard West, which was denuded of a similar feature some years ago. A contrast is evident between the two sections of this Boulevard which must convince anyone that trees and other planting are essential in the proper development of any place of habitation.

This brings up another subject that has plagued us here in Winter Park. Many well-intentioned folks are continually throwing verbal brickbats at the City Government for ruthless destruction of our glorious shade trees. The Owl is a devotee of trees and took an active, if perhaps futile, part in the "War of the Trees," some two years ago. Nevertheless he is compelled to say that within ten or fifteen years we shall have left very few of the splendid trees that are now one great source of pride. These old oak trees were planted between fifty and sixty years ago by young men of Winter Park, eight of whom were still living here a few years ago when the Owl checked on our tree population.

These oaks have a life span of about fifty to sixty years, so they are now nearing the end of their normal lives. This is the reason for the drastic pruning that has so seriously disturbed many of Winter Park's tree loving citizens.

Yes! You and the Owl are quite prone to get all heated up over happenings here, especially if we don't know what causes them. Sometimes we get over-heated; sometimes fail to reach the boiling point when we should but, take it all in all, Winter Park is a well-managed town, and we are all fortunate in being citizens here. But, eternal vigilance is the price of liberty.

Women's Club News

Albin Polasek, the sculptor, has returned recently from a trip to California and will be present at the meeting, Friday, January 13, at three o'clock, to tell of his work, some examples of which will be on display. Mrs. J. Hilbert Sapp, of Orlando, will review "Carving his own Destiny" the story of Mr. Polasek's life written by his wife, Ruth Sherwood, and published after her death. The meeting is in charge of Mrs. Frances Calvet, art chairman.

Mrs. Florence Felton French, radio actress, commentator and writer will review Anne Morrow Lindbergh's "Gift from the Sea" at the meeting on Wednesday, January 18, at ten o'clock, under the auspices of the American home department, Mrs. George L. Brownson, chairman. Before coming to Winter Park to live, Mrs. French was actively engaged in radio productions in Vancouver, B. C., Utica, N. Y., and New York

City. She is the author of several plays and books. Attention is called to the change from the usual hour of meeting, because the book review is to be followed by a social hour and coffee, sponsored by the social chairman Mrs. Nelson A. Arend, and Mrs. Harry Hansbrough, Jr., co-chairmen. Hostesses will be Mrs. Jane Sodero and Mrs. Charles W. Moody, assisted by Mrs. A. W. Parks and Mrs. Smiley I. Regan. Mrs. Ralph P. Baker and Mrs. Charles G. Blackburn will preside at the coffee table for which Mrs. William B. Lawrence is planning attractive decorations.

Friday, January 20, at 3 p.m., the music department, Mrs. Florence Mulford, chairman, Mrs. Leonard C. Smith, co-chairman, will present the Royal School of Dance, in an afternoon of ballet, under the direction of Edith Royal.

Reading Club Now Studying Shakespeare's "The Tempest"

The Drama Reading Club of Winter Park is currently reading Shakespeare to become more familiar with the English playwright's "The Tempest," later to be presented by the Rollins Players.

"The Tempest" represents the height of the Bard's dramatic achievement and the club holds itself fortunate in being able to read into the great words.

Mrs. Donald Creighton Baird, president of the reading club, invites anyone who wishes to read with the group to contact her as soon as possible.

Florida Symphony Concert Widely Attended—Varied Program Presented

One of the interesting events of each New Year is the opening of the three month season of the Florida Symphony Orchestra. A large and enthusiastic audience was on hand to welcome back this group of musicians, now in their sixth season. Mr. Frank Miller, who is beginning his second year as conductor, had selected a quite versatile program to present at last Saturday evening's Opening Night.

There were a good many new faces among the players, although it is gratifying to note that there are many who have found it possible to return year after year. That is the secret of fine symphony music; the playing and growing together musically year after year. Even the finest symphony orchestras in America have had just such experiences in their early years, and should be pleased to feel that we have the opportunity to watch the sure development of this group of professional musicians, and to support them in their endeavors.

The first half of the program was devoted to one of the monumental compositions of symphonic literature, the **FIRST SYMPHONY** by Johannes Brahms. The performance of this work requires the utmost in precision and musical insight. Mr. Miller and his associates must be given credit for even attempting such a feat. As the Symphony progressed through the four movements, the nervousness somewhat evident in the first and second parts wore off until the fourth movement attained the necessary solidity and brilliance. To start the first program of a new season in such a way is something that very few would undertake.

The second half of the program presented the greatest possible contrast to the first half, romantic program music by three composers. The **DIVERTISSEMENT**, by the French composer Jacques Ibert, consisted of five movements which were played with verve and apparent enjoyment by the orchestra. The audience reacted to its mood of gaiety and amusement, especially because of the two well-known melodies of Mendelssohn and Johann Strauss which are introduced in it.

For some reason, the following piece, the **OVERTURE** to "La Forza del Destino", by the Italian opera master, Verdi, sounded very different from what it usually does. Its very familiar melodies served as a straightforward

contrast between the Ibert music and the final number on the program, De Falla's **EL AMOR BRUJO**. Written as it was to include both dance and song, it does not include any Spanish folk melodies, as such, but makes use of true Andalusian rhythms. Ruth Hall, contralto, a newcomer to Orlando, and the evident possessor of a fine voice, was allotted the rather ungrateful task of singing the four vocal parts. We are happy to note that she is to appear as contralto soloist with the Orchestra in Mozart's **REQUIEM**, on Saturday evening, January 21st, in which she can appear to greater advantage.

All in all, it was a good concert for what is hoped will be the best season yet. However, some of us feel that it would have been still better if the two halves of the concert had been played in reverse order, both in regard to the performers and also the listeners. This is said solely in the spirit of constructive criticism. May the good work continue! (L.H.S.)

University Club

Leslie A. Davis, retired, 475 Jo-Al-Ca Ave., U. S. Representative to Finland for many years, was accorded a standing ovation at the University Club last Saturday night following his address on "The Story of Finland." Speaking entirely without notes Mr. Davis held his audience of 150 fellow members practically spellbound as he traced the history of that little country and its courageous people through war occupation, famine and disaster, to emerge today as one of the most respected little nations in the world.

The first of three receptions for new members, their sponsors and wives was held at the club last Monday evening with more than 100 in attendance. The Bethel Baptist Choir sang a number of Negro Spirituals and light refreshments were served. Col. Gordon Steele, Chairman of the Club's Social committee, was in charge of arrangements. This event was in honor of those elected to membership prior to November 3rd. Another reception for additional new members will be held the evening of January 30th.

"Politics in America," a timely topic in 1956, will be the subject of the Friday afternoon Pow Wow at the University Club, with Clinton J. Ruch, 360 Sylvan Blvd., as speaker. Mr. Ruch, who practiced law in Wall Street for nearly 40 years, will "take a look at Politics in America as a foreigner would." As a basic text of

The Late Dr. Leonard Dyer Said Inspired By Italian Genius

The late Dr. Leonard Dyer was justly praised recently by the Jacksonville FLORIDA TIMES-UNION. The article follows:

Leonard Dyer, who died in Winter Park at the age of 82, was perhaps inspired by the great Italian genius to whom his name bore a resemblance — Leonardo da Vinci.

Like Leonardo, Mr. Dyer was both an inventor and an artist. He invented an automobile direct drive, a sliding gear transmission, a selective gear shift and unit power plant. As an artist, he once held a one-man show in New York.

Samuel F. B. Morse, inventor of the telegraph, was also a painter. In the pattern of these lives there is surely a lesson for educators who are so oriented toward specialization these days. Inventive minds resist overspecialization, for instinctively they know that creative insight is based upon imagination and broad synthesis, not narrow analysis.

Much of Doctor Dyer's pastime was spent in putting his thoughts on paper. Typical of his reminiscences is this:

I remember a beautiful Bohemian town
Which was called a spa,
And where I went to take a cure.
A lovely valley, with enclosing wooded hills,
With paths upward tending,
Marked by different colored arrows
To show their steepness.
How I climbed each morning for breakfast,
Heart breaking climbs,
And what ecstasy to overcome one color
And graduate to a harder path,
Regretfully, to still another restaurant.
Guten Morgen, Frauleinchen,
Frustuck, bitte,
Rusk mit Kaffee, kein Zucker.

A smile; Aufwiederseh'n, mein Herr.
And later the promenade
On the esplanade
To the music of the orchestra,
Each one holding a glass of curving water,
Ladled out by a smiling girl, and
Sucked up through a straw.
How I hated to go away, but I was cured.
Later in Moscow, what a contrast!
Never a smile on any face,
Such unhappiness in a gigantic s'm.
I couldn't go back to my beloved Marienbad,
Even if the iron curtain were lifted.

Maitland Church Buys Property

The Maitland Presbyterian Church announces the purchase of land adjoining the present church property to the west. This will add about one and one-half acres to the property making about two and one-half acres of ground. The expansion program envisioned will be accomplished in phases. The first and most needed will be a parking area and a Christian Youth center. This is expected to get underway in the near future. The second phase of expansion will be a permanent Christian Education building, and the third phase will be the expansion of the Sanctuary.

The Maitland Church plant, when completed, is expected to be one of the most attractive and convenient in Florida, says the Rev. Arthur A. Froehlich, minister. This historic church has become widely known as "The Church by the Side of the Road." It was built in 1881, and newspapers far and near have carried stories of historic interest about this church. Artists have used it as subject for sketches and paintings, and it has been memorialized in both music and verse.
